APPRECIATION LETTER

We are writing this letter to place on record that the department of Aeronautics, Jamia Millia Islamia, would like to Acknowledge, Appreciate and Thank The **Coders Ready** for holding a Hands-on workshop on “**Application of Data Science in Aerospace/ Aviation**” field.

Not only was the workshop organized in an extremely professional manner but all the information that was shared along with the hands-on exploratory data analytics and application project gave our students a new perspective to the whole data science applications situation in aviation field.

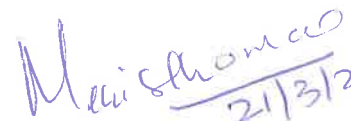

We once again would like thank the whole Coders Ready team. This workshop has truly infused our students with hope by showing them the potential of the data science for the aviation enthusiasts.

We look forward to further cooperation and collaboration with **Coders Ready** in future and would like to attend future seminars and workshops as well.
