Ref:IITM/DIR/2023-24/5085   Dated:10.04.2023

Appreciation Letter

We are writing this letter to place on record that the department of CSE/BCA, IITM Group of institutions, would like to acknowledge, appreciate and thank the **Coders Ready** for holding a hands on workshop on "**Data analytics, App development using Python**"

Not only was the workshop organized in an extremely professional manner but all the information that was shared along with the hands- on exploratory data analytics and application project gave our students a new prospective to the whole data science applications.

We once again would like to thank the whole Coders Ready team. This workshop has truly infused our students with hope by showing them the potential of the data science in the real world.

We look forward to further cooperation and collaboration with **Coders Ready** team in the near future and would like to attend future seminars and workshops as well.

With best wishes

For International Institute of Technology & Management
